Blessing O. Amos-Aleonomoh

Product Designer (UI/UX) | UX Engineer

blessingkadiri21@gmail.com • +234 810 878 3006 • LinkedIn • GitHub • Portfolio

SUMMARY

Product Designer with 2–3 years of experience designing web and mobile products, focused on interaction design, workflow clarity, and usability. Works across user research, wireframing, prototyping, and usability testing, with frontend engineering awareness supporting effective design-to-development handoff. Background in structured problem-solving and user analysis.

EXPERIENCE

Product Designer & UX Engineer | Clipnote — AI Video Summarization Platform • *2025*

- Built an AI-powered web application that processes and summarizes long-form video content using REST APIs.
- Designed and implemented reusable React components with scalable, maintainable architecture.
- Managed asynchronous data handling with clearly defined UI states: loading, success, error, and empty.
- Designed error-handling and fallback flows to improve application reliability and user experience.
- Optimized dynamic rendering and state updates for performance and responsiveness across devices.

Technologies: *React, JavaScript (ES6+), REST APIs, HTML5, CSS3*

Product Designer | Trajectra — Drone Operations Console • *2025*

- Designed authentication and onboarding flows within a 22-person cross-functional team.
- Conducted user research (surveys, user testing) to identify friction in access and recovery flows.
- Simplified interaction patterns by removing redundant steps and improving system feedback.
- Iterated on designs based on usability testing to improve task clarity and reduce user errors.

Product Designer | Luna — Wellness & Mental Health App • *2025*

- Designed a mobile wellness application with a strong focus on privacy, trust, and usability.
- Conducted user research including interviews, surveys, and usability testing to understand user needs.
- Developed user flows, wireframes, and high-fidelity prototypes in Figma.
- Improved interaction clarity through iterative design cycles and continuous usability testing.

SKILLS & TECHNOLOGIES

Product Design & UX: User Research, Interaction Design, User Flows, Information Architecture, Wireframing, Prototyping, Usability Testing, Design Systems

Frontend & UX Engineering: HTML5, CSS3, JavaScript (ES6+), React, Responsive Design, Component-Based Architecture

Tools & Collaboration: Figma, Git, GitHub, Design Handoff, Cross-functional Collaboration

APIs & Data Handling: REST API Integration, Asynchronous Data Handling, Error Handling, State Management

PROJECTS

Google Docs UI Redesign — Improved visual hierarchy and usability across the core editing interface.

OBS Studio UI Redesign — Enhanced interaction clarity, information layout, and overall structural flow.

EDUCATION

Front-End Engineering Bootcamp (In View) • Dev & Design Bootcamp

UI/UX Design Certification • Dev & Design Bootcamp & Udemy — 2025

M.A. English Language • University of Lagos — 2019

B.A. English Language • University of Benin — 2015

Referees available on request.
